***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguishes over the prior art for the following reasons. The prior art does not disclose or suggest a method for operating a modular control system, during an initialization phase, including a central processor entering, without any gaps, at least one of central processor inputs and outputs into a process image; the processor image is transferring to an adjacent peripheral module; each of the peripheral modules entering, without any gaps, peripheral inputs and outputs into the process image; and the process image is delivering to a neighboring one of the peripheral modules as set forth in claims. The cited references at most, contain only one or the other, but not all the limitations claimed. There would also be no reason to make any of the possible combinations.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any response to this action should be mailed to:
